

# **DXOC** Outdoor Cabinet

Designed with your most intimidating weather environment in mind

## **Design**

- Powder coat (exterior rated) over 12 ga steel
- Filled and welded seams
- Full length heavy-duty piano hinges
- No top cabinet holes to eliminate leakage
- Fully insulated cabinet
- Cabinet bottom with stiffeners for added strength
- 1/4" Steel mounting flanges (cabinet ends & centers) to eliminate sagging

## **Security**

- Fully gasketed 12 ga steel doors (with stiffeners for additional security)
- Heavy-duty keyed door locks with multi-point drive-rod compression latching and padlock hasp.
- Heavy-duty lifting brackets welded to cabinet for increased lifting security

The OC cabinet is a well designed and very formidable outdoor cabinet that can handle extreme weather conditions. All of the design including exterior rated door latch & lock hardware, AC & heater, exterior powder coat, roof top-hat panel, filled & welded seams, no holes in the top half of the cabinet, fully gasketed & weather tight doors, lifting brackets welded to cabinet instead of using bolt holes, full insulation, etc; are all designed and incorporated for the most intimidating weather environments. Extreme outdoors, ruggedness and security make this cabinet the ideal choice.
